The Honorable Ed Herschler
Governor of Wyoming
State Capitol Building
Cheyenne, WY. 82002

Dear Governor Herschler:

In compliance with the provisions of Chapter 39-1-303, Wyoming Statutes 1977, the Ad Valorem Tax Division of the Department of Revenue and Taxation submits its 1984 Annual Report. This report shows all taxable property in the State of Wyoming and the value of same in tabulated form.

Respectfully submitted

DEPARTMENT OF REVENUE AND TAXATION

Rudolph Anselmi

Rudolph Anselmi, Chairman

AD VALOREM TAX DIVISION

Warren A. Bower, Director

Robert St. Clair, Assistant Director

AD VALOREM TAX DIVISION

Objectives

The Ad Valorem Tax Division is the administrative arm of the State Board of Equalization. The primary duties of the Ad Valorem Tax Division of The Department of Revenue and Taxation can be directly traced to Article 15, Section 11 of the Wyoming Constitution, which reads in part: "All property....shall be uniformly assessed for taxation and the legislature shall prescribe such regulations as shall secure a just valuation for taxation of all property, real and personal." This provision and the many enabling statutes describe what the Division has as its objectives.

The Board must depend on local county assessors to carry out the state's equalization function and relies on them in the administration of the Ad Valorem Tax Laws. The Board cooperates and assists the Assessors in every manner possible to help ensure that all assessments are fair and equitable between property owners and between counties. In 1984, the Division audited county assessors for compliance with the Board's directives as specified in W.S. 21-13-310 (school foundation).

The Ad Valorem Tax Division is responsible for accumulating the necessary data for the Board of Equalization's use in determining the State General Fund and the State School Foundation Levy requirement.

Division personnel testify before the Board of Equalization during valuation appeals of both state and locally assessed property. The Division also investigates valuations which may aid the Board in satisfying an appeal without the necessity of a formal hearing.

The Ad Valorem Division keeps the minutes of the proceedings, appeals and deliberations of the Board of Equalization in matters involving all types of taxation.

The majority of the assigned duties of the Ad Valorem Tax Division are found in the statutes relating to the State Board of Equalization, the Tax Commission and the Department of Revenue and Taxation. The statutes generally define three major categories of properties, "exempt", "state" assessed and "locally" assessed. Relative to the state assessed property, the Division gathers, compiles and analyzes information relating to the valuation of all hard mineral production, oil and gas production, pipelines, airlines, railroads, public and private utilities, telephone and telegraph companies and private railroad car companies. This information, along with the Division's appraisals, is presented to the Board for its consideration in determining the fair and equalized assessed value of all state assessed properties. The Division then notifies all parties of interest. After the appeal period, these values are certified by tax district to county assessors to be added to locally assessed property as a basis for the levy of ad valorem taxes in various taxing districts in the respective counties. These state assessed properties now represent about 78% of the total State Ad Valorem Tax Base.

The Division, in cooperation with county assessors, prepares recommendations and guidelines for the uniform and equal valuation of locally assessed property. Division personnel inspect industrial complexes and plants throughout the state for the assessors. Applications for exemption of pollution control devices are also reviewed by this Division.

The Division compiles and maintains complete and current cumulative records of oil and gas production by counties; prepares and distributes annual reports relating to the taxable valuation of the state, by county and property classification; plans and conducts the annual assessor's school; meets with local assessors and other county officers on assessment matters; advises and confers with county assessors concerning the interpretation of the assessment and taxing statutes; aids the county assessors in the assessment of unusual properties in the various counties; and provides assessors with the instruction and supervision for local personnel employed to list the construction components of all buildings in the state for the revaluation program.

In addition to the direct constitutional and statutory duties, the Division also carries on many other activities. These activities include the appearance of key personnel at public meetings to discuss the valuation and taxation process; meetings between Division personnel and individual and corporate taxpayers to review appraisal techniques used; assuring equality and uniformity of local and state assessed values; and conferences with other state tax officials to discuss mutual valuation problems. In line with the stated purpose of attaining uniform and equal valuations, the Division follows Board policy by providing in-house training and cross training programs for its staff. Our training program also includes staff attendance at nationally recognized professional appraisal schools by appraisal personnel as budgets permit.

The Division has 18 full-time employees authorized, including a director, assistant director, supervisor of state assessments, supervisor of local assessments, two (2) senior appraisers, nine (9) staff appraisers, two (2) data coding technicians, and a secretary.

Because of the great amount of statistical information generated, many local, state and federal agencies look to this Division for information. State agencies supplied with information in the past year include the State Department of Education, the Department of Economic Planning and Development, the Department of Administration and Fiscal Control, Environmental Qualities, the Legislative Service Office, the State Planning Coordinator, other divisions in the Department of Revenue and Taxation and members of the Legislature.

In addition, we have had almost daily requests from non-government groups seeking data for feasibility studies on energy development, and environmental impact studies being conducted by private groups, governmental agencies, universities and industries.

Revaluation of Buildings and Town Lots

This Revaluation Program began in 1968 and is still incomplete in Big Horn, Carbon, Laramie and Natrona Counties. A multiplier was supplied in 1975 to compute an equivalent revaluation figure for those counties and was to be used until the Revaluation Program was finished. The 1967 Wyoming Appraisal Manual will be phased out in 1986. The new Appraisal Manual now being prepared will provide assessors with up-to-date appraisal methods which should help eliminate problems which are becoming apparent in our existing system. The new Appraisal Manual will be computer assisted and capable of annual updates in compliance with the Department rule which provides for assessments to be made annually on a current value basis. County Assessors updated town lot values in 1984.

Of major concern to the Division and assessors is the lack of a Sales Price Disclosure law. Wyoming is one of the few states having no statutory requirement for recording of real estate selling prices. This makes the collection of market data very difficult and expensive. The enactment of sales disclosure legislation would be a tremendous help to assessors and to the Ad Valorem Tax Division in compiling market data. This data would enable the Division to apply statistical analysis methods leading to more equitable valuations and as a tool for the Legislature to measure performance of ad valorem tax procedures. Legislation to accomplish this died in the Senate Revenue Committee in 1984.

Revaluation of Agricultural Land

Wyoming Statute 39-2-103 enacted by the legislature in 1973 requires all agricultural land to be valued for tax purposes based on its capacity to produce agricultural products. To comply with this legislation, an entirely new system of valuation was put into effect. Soil classifications and productivity ratings developed by the Soil Conservation Service of the United States Department of Agriculture were determined to be the most readily available data and were adopted as a basis for determining agricultural land valuations to each group of soils.

Meetings have been held in the past and will be held during 1984 with representatives from various agricultural organizations. The 1984 meetings will consider the Division's plan to annually update the agricultural land valuation base to current levels. Input from agricultural industry representatives has been very useful in the past and the Division anticipates continued good relations in the future.

The Board took action in 1984 to apply the same equalization factor (8%) to agricultural land value as was applied to other real estate.

The agricultural land appraisal program on the county level continues to require assistance and supervision of our staff. The Division's appraisal of agricultural properties have been generally well accepted by the agricultural community. We assigned one full-time person to this project in 1983 and, we believe, we are making progress in this area more than at any time in the recent past.

Valuation of All State Assessed Property

This program has as its objective the valuation of all property required by law to be assessed at the state level. The accomplishments of this program can be best shown by showing the types of property assessed, the number of companies and the total valuation for the past year.

No. of Companies or Producers	Type of Company or Production	Estimated Market Value	Assessed Value
399	Oil	$ 2,986,418,942	$ 2,986,418,942
257	Natural Gas	1,258,272,277	1,258,272,277
24	Coal	1,151,048,135	1,151,048,135
9	Bentonite	9,746,821	9,746,821
107	Sand & Gravel	4,252,353	4,252,353
1	Taconite	7,435,113	7,435,113
5	Trona	104,500,003	104,500,003
11	Uranium	50,837,054	50,837,054
25	All Other Minerals	5,275,502	5,275,502
28	Liquid Pipelines	384,230,000	34,087,300
13	Gas Pipelines	563,840,000	56,880,542
14	Municipal Utilities	22,634,500	2,482,000
40	Private Utilities	1,448,000,000	205,637,800
8	Airlines	12,815,000	1,644,000
15	Radio-Telephone	5,470,000	602,130
25	Rural Electric	1,079,318,000	116,626,640
19	Telephone & Telegraph	563,588,500	125,025,500
5	Railroads	896,018,000	64,141,806
		$10,553,700,200	$ 6,184,913,918

The foregoing assessed values are certified to county assessors where the property is located or where the minerals are produced to be entered on the local tax roll.

Assistance to Local Assessors

This program's objective is providing ongoing assistance to assessors in the many and varied problems they face. Local assessments comprise approximately 22.2% of all of Wyoming's taxable valuations and amounted to $1,760,576,994 in 1984. While these assessments are classified as local, the Ad Valorem Tax Division directly calculates a large portion of these values for the assessor. For instance, this Division has appraised some 14,340 residential, rural and commercial buildings for the local assessors in FY-84.

The Ad Valorem Division also appraised 125 industrial plants and complexes which had a current value of $2,732,692,413 and a taxable valuation of some $218,615,400. The appraisal of these industrial properties requires frequent on-site inspection of the plants, with close attention to yearly changes and allowable exemptions for pollution control devices. While these properties are local assessments, the Division provides this service as part of our program of assisting the local assessors as well as providing for continuity and record keeping in the event of an assessor change.

The Division also provides recommendations and guidelines to the assessors for most other types of property located within their counties. Among the published guidelines and recommendations we provided to the assessors recently were equalized agricultural values for grazing land, dry farm lands, current valuation for boats, tractors, construction equipment, bowling alley equipment, drilling rigs and equipment, aircraft, oil field equipment, commercial furniture and fixtures, livestock values (which are only subject to predatory and brand inspection taxes) and mobile and transportable home valuations.

In addition, we provide the assessors with a listing showing all legal limits for mill levies and provide almost daily information, by telephone or letter, in answer to the many requests for information and assistance that we receive from the assessors.

The Division provides a frequent updating of information contained in an assessor's handbook which was compiled and furnished to the assessors by this Division. This includes such information as the interpretation of the statutes, opinions of the Attorney General relative to assessment and taxation, general information relative to the duties of the assessor and operation of the office and a multitude of other pertinent information. A new manual for appraising non-agricultural land and town lots was published during 1983.

Problem Areas

The Division is now appraising directly 1,215 companies including private car companies plus 125 industrial facilities. These properties must be identified by situs and assessed values certified to assessors in one or more of the 324 individual taxing districts. These districts which include the 23 counties, 93 municipalities, 48 school districts, 54 fire districts, 36 cemetery districts, 17 recreation districts, 26 water and sewer districts, 11 hospital districts, 1 museum district, 6 solid waste districts, 2 water conservation districts, 7 improvement and service districts and 4 areas of separate bonding levies. (Mountain Bell has property subject to 238 individual taxing authorities.) Special districts were created by the legislature to authorize taxes in excess of constitutional limitations imposed on counties.

Inflation affects all property differently. Generally speaking, the value of any property is based on a buyer's opinion of the present worth of future benefits derived from ownership. Existing utility property values tend to be rather stable since regulatory agencies only permit them to earn on book value (depreciated historical cost). Unregulated property, such as housing, tend to increase or decrease in values as rentals change. This difference presents two entirely different appraisal problems and two entirely different training programs for division personnel.

Legislation

The Forty-seventh Legislature enacted the following law affecting the Ad Valorem Tax Division:

Chapter 70--Property Reassessment

AN ACT to amend W.S. 18-3-205(a), 18-3-901(a)(iii) and by creating a new paragraph (iv), 18-3-906, 39-1-304 by creating a new subsection (b) and 39-2-301(c) relating to property taxation; appropriating 10 million dollars for a reappraisal of selected taxable property; providing contract conditions; providing clarification relative to removal of county assessors and members of the State Board of Equalization from office; providing penalties; and providing for an effective date of March 23, 1984.

Only $5,000,000.00 was finally authorized for FY-85.

Legislation introduced in 1984 to provide a sales price disclosure law which would have been used to measure the effectiveness of the new appraisals died in the Senate Revenue Committee.

Bids on the new reappraisal program were received on July 31, 1984 and are currently being reviewed.

Requests for proposal to appraise industrial property were issued in September.

Litigation

The Railroad's challenge of the Board's equalization valuations in Federal District Courts resulted in a 50% reduction in assessed value in late 1983.
